

PLEASE SUPPORT

A CONSUMER CHOICE PROTECTION BILL FOR THE
STATE OF OHIO ——— THAT PROTECTS MY ACCESS
TO
UNLICENSED NATURAL HEALTH CARE
PRACTITIONERS

Dear Representative _____ :

I respectfully urge you to introduce, cosponsor, and support **safe harbor** legislation that protects my access to traditional and unlicensed natural health care practitioners.

I want you to protect my freedom to make my own choices about my health care, including the right to choose from both licensed and unlicensed health care practitioners in Ohio.

My access to unlicensed health care practitioners is now threatened because of outdated laws that give exclusive rights to a few licensed professionals to engage in all aspects of the healing arts and exclude other practitioners and treatments.

The State of Ohio needs a **safe harbor** exemption law that exempts natural health care practitioners from these restrictive laws. Consumers should have free access to all safe healing arts.

Traditional healers and unlicensed practitioners should not require licensure. They engage in historically safe nutritional and lifestyle counseling, herbal and homeopathic therapies, and many less expensive modalities. They do not practice medical procedures that pose a high risk of harm to the public. Yet in Ohio, no law protects my access to these affordable unlicensed practitioners.

MN, CA, RI, LA, ID, and OK all have enacted successful safe harbor Health Freedom Laws. It is now time to enact a similar Health Freedom Law in Ohio.
